THE DRAGON PRINCE

- 1** Once upon a time, there was a king and a queen who lived in a golden castle with their beautiful daughter. One night, an ugly ogre captured the beautiful princess, and locked her up in his tall, dark tower. "Help me" cried the princess. The king and queen were very sad. They promised to give half of the kingdom and their daughter to the knight that rescued the princess.
- 2** All the knights in the land wanted to rescue the princess. They rode to the tower as fast as they could. The ugly ogre roared with anger when he saw the knights. His roar was so scary that they ran away as fast as they could.
- 3** One day, a friendly dragon was flying over the ogre's tower. He heard the princess crying for help. The dragon flew down to the tower and saw the poor princess. He took a big fiery breath and blew the ogre far away over the mountains and into the ocean.
- 4** The dragon rescued the princess from the tower and gently put her on his strong back. "Come with me princess! Don't be scared." The dragon said. "Thank you for saving me". The princess said happily.
- 5** When the dragon and the princess returned to the castle, the princess kissed the dragon and thanked him once again. As she kissed, the dragon turned into a handsome young prince. The king and the queen were so happy to see the princess. They gave the prince half of their kingdom and their daughter to the prince. Soon, they both got married and lived happily ever after.
